The designer

Carol Appleton. Born in 1961. Holds a degree in Textile Design and Design Management from the University of Manchester. Experienced Textile Designer and Creative Director.

The collection

Rocks, carved by ancient forces, are a thumbprint of the Earth's past. Bearing centuries of weight and meaning, each stone has travelled through time and landscapes so infinite that we can't comprehend. Through their immortal existence, they're the subject of many myths and legends and their scale confirms that we're but a small event in their seismic history.

Always changing, the rockface resists and yet eventually gives way to the elements. Sliding, folding and tumbling into chaos, the fractures build a new structure and the seas wash the minerals into weeping colours. During the landslide, the Earth buries its face and then reveals a new beauty. Freshly transformed, Mother Earth is ready for a new era.

In our Mark of Time collection, the multi-level loop construction creates a sculptural texture influenced by the collision of the

Earth's layers. Tilted, chaotic and organic elements come together to define the two co-ordinating patterns, Bedrock and Landslide, that can be used alone or combined to give a soft or dramatic expression to the floorscape. Minerals including jet, lapis and serpentine have inspired the colour palette of tone-on-tone neutrals complemented by darker shades that create either a subtle or powerful yet refined look.

Mark of Time is available as carpet tiles, planks, wall-to-wall carpet and the innovative Figura shapes. Each design comes in 15 contemporary colours carefully chosen for their ability to combine into unique compositions. Cradle to Cradle Certified®, crafted from regenerated and regenerable yarn and fitted with our patented recycled Ecotrust backing, the collection perfectly suits your sustainable flooring project. Follow The Green Thread on page 27 to learn more.

Sizes and shapes

The Bedrock and Landslide patterns are available as carpet tiles, planks, Figura and wall-to-wall carpet offering a multitude of design options for your floorscape. With this collection, you can create distinctive and functional spaces that offer flexibility and variability in their expression. To help you make the most of your floor, you can choose from a variety of carpet sizes that match your preferences and requirements.

Carpet tiles and planks offer a high level of flexibility, easy to install with flawless joints. The square carpet tile is available in two sizes; 48x48 cm or 96x96 cm that can be installed in the monolithic style to mimic the look of wall-to-wall carpet or as quarterturn where pattern and pile direction create a different look. The rectangular plank comes as 24x96 cm and with our

Figura concept, you can specify innovative tile shapes to add an extra geometric touch to your design expression. The collection is a great visual toolbox where you can achieve very different looks depending on the sizes and shapes you choose.

Mark of Time comes in a wide palette of contemporary colours from subtle tone-on-tone shades to more rich tones carefully coordinated for perfect combinations. It allows you to experiment with different spatial options that help define areas such as meeting points and quiet or communal zones, as well as catering to social distancing requirements and wayfinding. Both patterns can be unfolded onto a continuous and unbroken surface when using wall-to-wall carpet, available at a width of 4 metres.

bedrock

Bedrock

Bedrock has a soft stone texture and is the foundation for the collection. The layers created by elemental forces tilt and tumble into shapes locked in time. Available in 15 tone-on-tone colours.

Floorscape inspiration

landslide

Landslide

Landslide is inspired by fragmented rock, weathered and streaked with colour. Each rock has a story to tell as it fractures and tumbles into the sea. Available in 15 rich tonal combinations.

Carpet for any specification

Bedrock and Landslide are a perfect match, but the Mark of Time patterns beautifully combine with other collections from Ege Carpets. Explore our entire assortment and create distinctive design solutions to fit any practical need, visual framework or budget. Mix your favourite patterns, colours, qualities, structures, sizes and shapes to develop your very own look and feel.

We offer a wide range of minimal flat woven constructions, soft shags and textured multi-level loop structures, as well as tufted cut or loop pile constructions with endless design options, thanks to our advanced production technology. Don't miss out on the Designer Collections by our long-term or newfound designer friends.

From plastic bottles

to flakes

to fibres

to Ecotrust felt backings

From fishing nets

to chips

to yarns

to textile floorings

Waste isn't waste until it's wasted

We turn used plastic bottles into our Ecotrust tile backing. Bottles are transformed into a soft yet strong PET felt material that's long lasting and has great acoustic performance. All our carpet tiles come with this unique, patented backing.

Abandoned fishing nets and other industrial waste are used for the yarn in many of our carpet constructions. Fishing nets account for one tenth of the waste in the ocean. They can drift for months and be a threat to sea life. Once collected, the fishing

nets are cleaned, broken down and reborn as strong, hardwearing yarn that's both regenerated and regenerable.

We challenge industry standards and rethink how aesthetics, quality and sustainability can be combined. Not only in terms of materials but in everything we do, and we invite you to follow The Green Thread with us. Read more about our sustainable ambitions and achievements at egecarpets.com.

Follow The Green Thread

Cradle to Cradle Certified®

This collection is Cradle to Cradle Certified®. The idea behind Cradle to Cradle is that the Earth's finite resources shouldn't go to waste. They should be re-used in new contexts, with no detrimental effect on people or the environment. In other words, the goal is to eliminate waste.

Indoor Air Comfort Gold

This collection is Indoor Air Comfort Gold certified, showing compliance of product emissions with the criteria of many of the voluntary specifications issued by the most relevant ecolabels and similar specifications in the EU. Gold certified products are best-in-class for low emissions and good for indoor air quality.

The Green Thread

A green thread runs through everything we do. It has for decades and will continue into the future. We do our utmost to protect the environment and improve the wellbeing of people. Read more about The Green Thread at egecarpets.com.

Terms and conditions

The Mark of Time collection features two patterns, each in 15 beautiful colours. Available as carpet tiles, planks, Figura and wall-to-wall carpet, the collection can take on very different expressions. The multi-level loop structure made from regenerated and regenerable yarn defines the pattern, adding depth and texture to the carpet while delivering outstanding quality, great comfort and acoustic benefits.

- 2 unique designs, each in 15 colours
- Multi-level loop structure
- Available as 48x48 cm tiles and wall-to-wall carpet at no minimum order
- 96x96 cm tiles and 24x96 cm planks available from 40 m² per size/design/colour
- Figura available from 40 m² per shape/design/colour
- Undisputed performance standard EN 1307
- Performance classification to fit any need; heavy use
- 48-hour sample service and eco-friendly shipping option of 5-7 days (within Europe only)
- Dispatch within 2 weeks from receipt of order for 48x48 cm tiles, 24x96 cm planks and wall-to-wall carpet
- Dispatch within 3 weeks from receipt of order for 96x96 cm tiles and Figura
